

APPLESEED RIFLE CLINIC

This clinic is oriented toward experienced shooters as well as beginners.
(You may be surprised to discover that there is much to be learned.)

May 22-23, 2010 --- KY Regulators Gun Club --- Boaz, KY

Appleseed offers the best rifle marksmanship instruction available anywhere. And the cost is only a fraction of that for any other weekend of any kind of firearms training. In addition, you will learn of the events of the first day of the Revolutionary War and the sacrifices made by those patriots who bequeathed the precious heritage of liberty to us.

Any kind of rifle and any kind of sights will suffice. However, a semi-auto with a removable magazine will be more user friendly for our purposes. Most shooters at these events use 22s because of the high price of center fire ammunition. Approximately 500 rounds will be fired. A good sling is recommended.

The event is FREE of charge for women, anyone under 21, active military, reserves, and guardsmen, as well as elected officials. The fee for everyone else is \$45 for one day, or \$70 for two days if you pre-register. If you walk on, the fee is \$5 per day more. There will be a \$5 per day range fee for everyone. It is a family friendly event, so bring the whole family and only the dad will have to pay. Attendance by women at these has been rapidly increasing and is strongly encouraged. In fact, some of our better instructors are women. Lunches will be provided for a modest fee. It is suggested that you bring a good supply of water, eye and ear protection, elbow pads, a mat to lie on, hat and sunscreen, and some friends. You will meet the nicest people and gain some new friends. The instructors will usually have a few rifles which they are willing to loan to shooters, as well as ammunition.

Pre-registration and additional information is available at www.appleseedinfo.org or www.hcgc.net. Pre-registration is highly encouraged. It is recommended that you bring your computer pre-registration confirmation sheet to the range.

This event is sponsored by the Revolutionary War Veterans Association which is a 501 (c) (3) organization. Our instructors are highly experienced volunteers who receive no payment for their services.
